

Fields of Expertise – Sustainable Systems

The world's population is growing, and energy use and environmental pollution are on the increase. At the same time, natural resources and raw materials are becoming scarce and the effects of climate change are warning us that we need to reduce our output of greenhouse gases. Scientists in the Field of Expertise Sustainable Systems – one of the five research focus areas of Graz University of Technology – are focussing on these complex challenges and undertaking interdisciplinary research to find sustainable solutions. Research topics range from sustainable urban planning, innovative building technologies and energy systems to the use of renewable energy sources, intelligent energy networks and green mobility.

Graz University of Technology invites applications for an open topic

Tenure-Track Assistant Professorship in the area of Low Carbon Building Technologies (f/m/d)

Of particular interest is research in construction and design of sustainable buildings, resource efficient design and non-standard construction methods. The professorship is aimed at young scientifically oriented architects or civil engineers with a scientific background in design, construction or materials science, respectively.

The professorship will be part of the Field of Expertise Sustainable Systems described at <https://www.tugraz.at/en/research/fields-of-expertise/sustainable-systems/overview-sustainable-systems/>

Based on the research and teaching focus, the candidate will be assigned to a matching institute and faculty that participate in this Field of Expertise.

Requirements:

- A relevant university education with a completed doctoral/PhD degree

Expected Qualifications:

- Outstanding achievements and potential in research, excellent publication activity and international reputation
- International experience in the form of a PhD or PostDoc position
- Experience in the design and implementation of international research projects as well as willingness and ability to establish and lead a research group
- Enthusiasm for excellent teaching, teaching experience as well as the ability and willingness to teach in all curricular stages (Bachelor, Master, Doctorate), supervise theses and promote young scientists

To ensure effective international representation of the research group and its work, excellent spoken and written competence in English is required. Specifically, willingness to teach courses in English is expected. Fluency in German or the willingness to acquire it is also required. The successful candidate is also expected to transfer her/his residence to the area of Graz.

Graz University of Technology aims to increase the proportion of women, in particular in management and academic staff, and therefore qualified female applicants are explicitly encouraged to apply. Until a balanced ratio of men and women has been achieved at the university, preference will be given to women if applicants are equally qualified.

Graz University of Technology actively promotes diversity and equal opportunities. Applicants are not to be discriminated against in personnel selection procedures on the grounds of gender, ethnicity, religion or ideology, age, sexual orientation (Anti-discrimination). People with disabilities who have the relevant qualifications are expressly invited to apply.

Our Offer:

The advertised position is a tenure-track career position for an initial period of 6 years. (pursuant to § 99 para. 5 of the Universities Act) After the conclusion of a qualification agreement, the job holder is appointed as an **Assistant Professor**. After a positive evaluation of the qualification agreement, the position will be turned into a permanent position as **Associate Professor**. Graz University of Technology provides excellent working conditions in a lively scientific community combined with the outstanding living quality of the Graz area.

The position will be paid according to category B1 of the collective agreement for employees of Austrian universities, stipulating an initial gross salary of EUR 4,309.30 (14 x per year).

Your Application:

Interested applicants are requested to send a detailed application in electronic form, and should quote the position identification number:

- using the completely filled out application form <https://www.tugraz.at/go/professorships-vacancies/>,
- including a resume (with copies of diplomas),
- a list of publications with copies of their 5 most important publications,
- a research statement describing past and planned research activities (3 pages max.),
- a teaching statement describing past and planned teaching activities (3 pages max.) and evaluations of past teaching activities (if available),
